Security:

Please note: The following only applies to Everlasting Coins main website. The security of your personal information is very important to us. In an effort to protect your personal information, we use Secure Sockets Layer (SSL) technology with 256-bit encryption. If your browser supports SSL (most current browsers do), it will automatically encrypt the information you provide to us on the secure pages on our site, before sending it over the internet.

When visiting a page on our site that includes any of your personal information, the bottom of your browser window will display an icon or in the browser window next to our web address by a closed lock or an unbroken key (depending upon your browser). This indicates that you have successfully connected with our secure server.

To authenticate the security of your connection before submitting any of your personal information, you can double-click on the icon to display our digital certificate.

Some browser versions and some firewalls do not permit communication through secure servers. In that case, we suggest that you contact us by phone, or email your order to us.

When you visit our site, we will ask your browser to place a permanent "cookie" (a very small text file) on your computer. If your browser is configured to accept cookies, it will accept the cookie and place it on your computer's hard drive. We collect this information to analyse where our customers are coming from and how often they visit our site. We also collect certain technical information from your computer, like your IP address and the address of a referring web site, if any. This information will allow us to enhance our site to match our customer's preferences. This information is used only for the benefit of Everlasting Coins and you, our customer. You can visit our site without cookies if you choose to do so. However, please be aware that some features of the site may not function properly or may be slower if you refuse cookies. To visit our site without cookies, you can configure your browser to reject all cookies or to notify you when a cookie is set. Check the browser's help menu to learn how to change your cookie preferences.

You can modify or correct this information by following the procedure described above. Such information is used at your request to ship purchased merchandise and may also be used for marketing purposes, but will not be sold to any third parties.
